The Upper Ocean Currents Observed by Multiple Subsurface Moored Buoys along 21°N near Luzon Strait in the South China Sea ................................................................. SONG Zhan-Hui, MA Wei-Wei, WAN Xiu-Quan, HAN Xue-Shuang (885)

Effects of Successive Two Typhoons on the Water Environment and Primary Productivity in the Northern East China Sea ........................................................................................................... WANG Teng, GAO Lei, LI Dao-Ji (897)

Comparison of Numerical Wave-Generating Methods for Internal Solitary Waves with Theoretical and Experimental Results ............................................................ LI Xiao-Min, ZHANG Lin, GUO Hai-Yan, JIANG Hai, WANG Wei (905)

Spatial Distribution of the Thermal Stratification in Qiandao Lake and Its Influencing Factors .............................................................. BAI Yang, ZHANG Yun-Lin, ZHOU Yong-Qiang, SHI Kun, LIU Ming-Liang, YANG Gui-Jun (914)

On Phytoplankton Community Structure and Causative Factors in the Jiaozhou Bay in 2011 .............................................................. LUO Xuan, SUN Xiao-Xia, ZHENG Shan, ZHAO Yong-Fang (923)

Algal Community Structure and Water Quality Evaluation in Zhalong Wetland .................................................................................. BA Qiu-Shuang, LI Xue, LIU Yan, DAI Cun-Fang, FAN Ya-Wen (934)

Photosynthetic Characteristics of Phytoplankton in the Western Pacific in Winter 2014 .............................................................. LI Jun-Lei, SUN Xiao-Xia, ZHANG Wen-Jing, CHEN Yun-Yan (944)

Abundance and Structure of Dominant Zooplankton Species in Austral Summer Near South Shetland Islands, Antarctica ................................................ ZHANG Ye, LI Chao-Lun, LIU Meng-Tan, GAO Li-Bao (953)

Seasonal Variations of Net Phytoplankton in Carbon Biomass and Community Structure in the South Yellow Sea ................................ YANG Yang, SUN Xiao-Xia (962)

Correlation and Path Coefficient Analysis for Chlamys farreri Cultured in Different Sea Areas .............................................................. DU Mei-Rong, FANG Jian-Guang, BAO Zhen-Min, GAO Ya-Ping, FANG Jing-Hui, JIANG Zeng-Jie (970)

Metabolism and Lipid Accumulation of Calanus sinicus in the Yellow Sea in Late Spring 2014 .............................................................. ZHOU Kong-Lin, SUN Song, ZHANG Fang (976)

Effects of Inbreeding on Growth and Survival of Larval and Juvenile Golden-Shell Pacific Oyster (Crassostrea gigas)
The Growth and Physiological Changes of *Amphidinium carterae* Hulbert under Environmental Stresses

Microbiota of Shell-boring Conchocelis of *Pyropia Yezoensis* Determined by the Next-generation Sequencing

Identification and Enzymatic Property of Cellulase-producing *Bacillus Subtilis* Isolated from Mangrove Rhizosphere Soil

Genetic Parameterization and Breeding Value on Body Weight of *Litopenaeus vannamei* in Different Growth Stages

Growth Competition Between *Microcystis aeruginosa* and *Chlorella vulgaris* Under Nutrition Control

Community Structure of Phytoplankton and the Relationship with Environmental Variables in Marine Pasture Demonstration Area in Xiangshan Bay

Observation of Embryonic, Larva and Juvenile Development of Small Yellow Croaker, *Larimichthys polyactis*

Cloning of CsTRAF6 Gene from *Cyclina sinensis* and Immune Response Under Poly I:C Stimulation

Identification of Body-length-related DArT Markers in New Cultivar “Donghai No.1” of Large Yellow Croaker

Cloning of Collagens from Skin of Bluefin Leatherjacket (*Navodon septentrionalis*)

Gray Correlation Analysis on Ecological Factors in Datong Lake in Yiyang City
