

凹顶藻属的一个新种名*

张峻甫 夏邦美

(中国科学院海洋研究所)

1980年,作者在研究西沙群岛凹顶藻属时建立了两个新种^[1]。其一的簇状凹顶藻 *Laurencia fasciculata* Zhang et Xia 系 *Laurencia fasciculata* (Turner) Greville 的后出同名,根据国际植物命名法规的规定,应予以重新命名,新名称如下:

赛氏凹顶藻 *Laurencia silvai* Zhang et Xia, nom. nov.

A NEW SPECIFIC NAME IN THE GENUS *LAURENCIA**

Zhang Junfu (C. F. Chang) and Xia Bangmei

(Institute of Oceanology, Academia Sinica)

The red alga *Laurencia fasciculata* was established by the authors in 1980^[1]. The specific name is, however, illegitimized by the earlier homonym *Laurencia fasciculata* (Turner) Greville, 1830^[3]. To validate the algal species, the writers substitute the name *L. silvai* for *L. fasciculata* Zhang et Xia. The writers are grateful to Dr. P. C. Silva for notifying this nomenclature problem. It is a pleasure to name this species for Dr. Silva, *Laurencia silvai* Zhang et Xia nom. nov. = *Laurencia fasciculata* Zhang et Xia in *Oceanologia et Limnologia Sinica* 11(3): 267—270, 273—274, fig. 1, 2, 5: 1, 1980. non *Laurencia fasciculata* (Turner) Greville, Alg. Brit. lii. 1830. [*Fucus fasciculatus* Turner, Fuci 4:12, pl. 202, 1819. *Chondria fasciculata* (Turn.) C. Agardh, Syn. Alg. Scand. xviii. 1817].

* 作者对 P. C. Silva 博士关于命名方面的提示深表谢意,现以其姓氏作为种的新名称。
